Guard App

A. Effective Safety & Security

Better manage organizational risk and emergency.

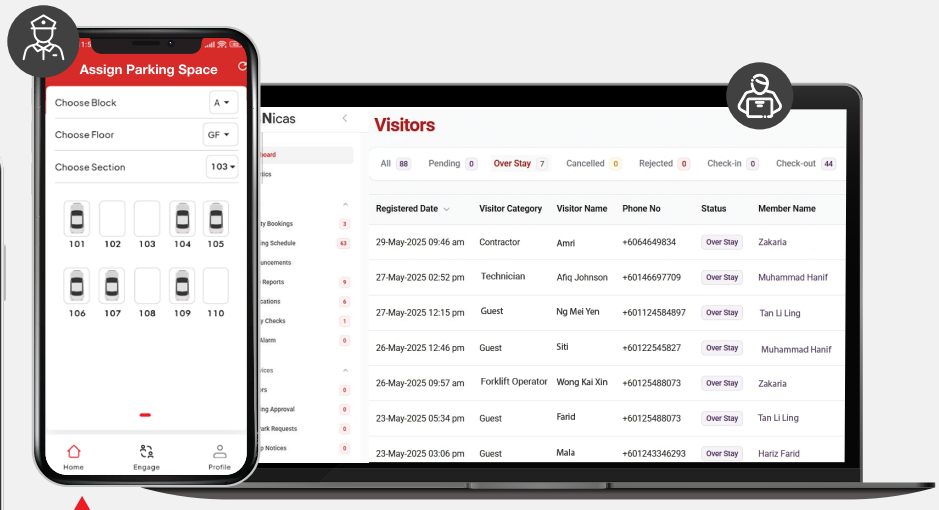

1 Visitor Management

Allow seamless visitor experience to enter with direct plate number, QR code, face recognition or QR check-in with guard. Support black list and clamp management.

Member pre-register visitor.

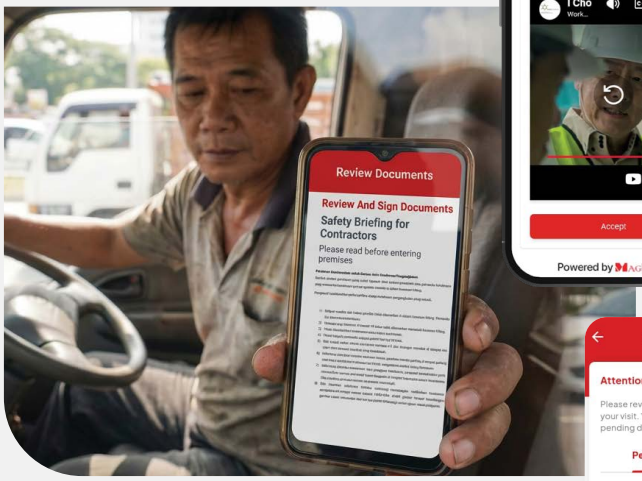

Visitor Present QR code at the gate.

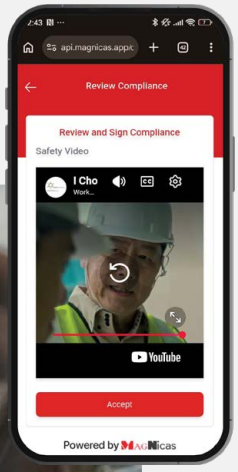

Guard assign parking bay to visitor.

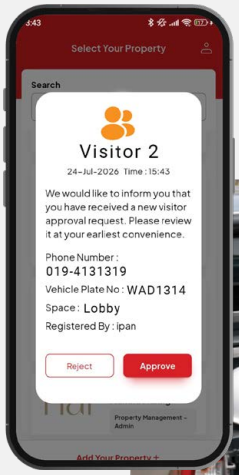

Manager portal shows full visitor status.

2 Compliance for Visitor and Member

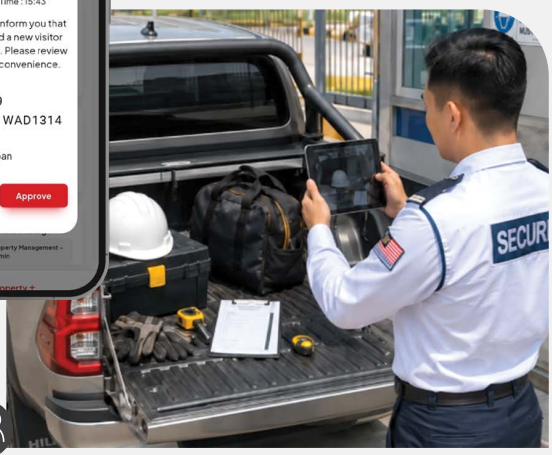

Visitor review safety policy document, video or questionaire.

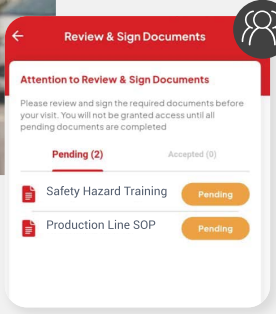

Multi level internal visitor approval.

Guard checking in all equipment by visitor.

Member acknowledge latest policy with automated reminders.

3 Alarm Safety Check

Automate safety check-in at the assembly point to quickly identify staff who are still trapped inside.

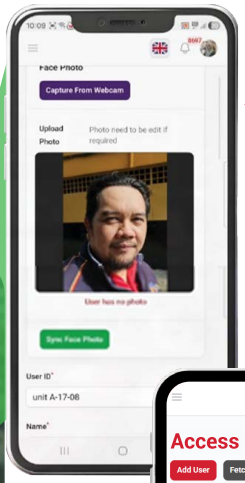

List out who is trapped inside.

4 Hybrid Cloud Access Control

Enjoy the convenience of managing all users over the cloud without giving up on-premise stability of controlling your security at the same time.

Fast User Management via Cloud

Easily enroll card, face and car plate numbers via mobile phone and seamlessly sync with on-site devices.

User Access Settings

Autonomous Visitor Access

No receptionist or guard verification required. Visitor can direct enter seamlessly with QR or plate number.

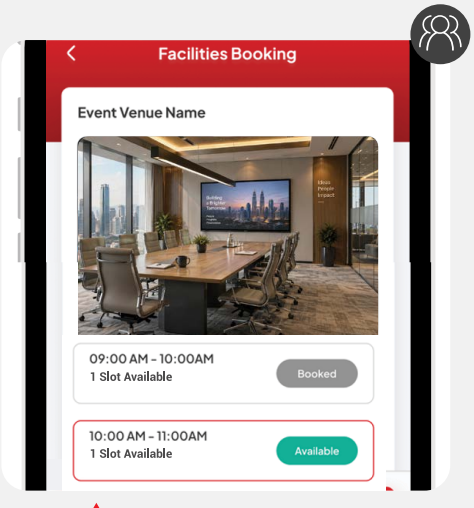

B. Streamline operation & control

Speed up daily process across dept.

5 Facility Booking

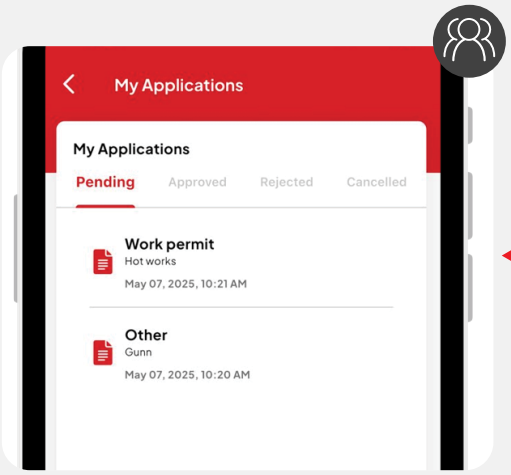

Simplify room, facility, equipment and parking bay reservation.

No overlapping with centralized booking

6 Applications / Permit

Automate any requests to the right manager for faster approval, customizable to match existing SOP flows.

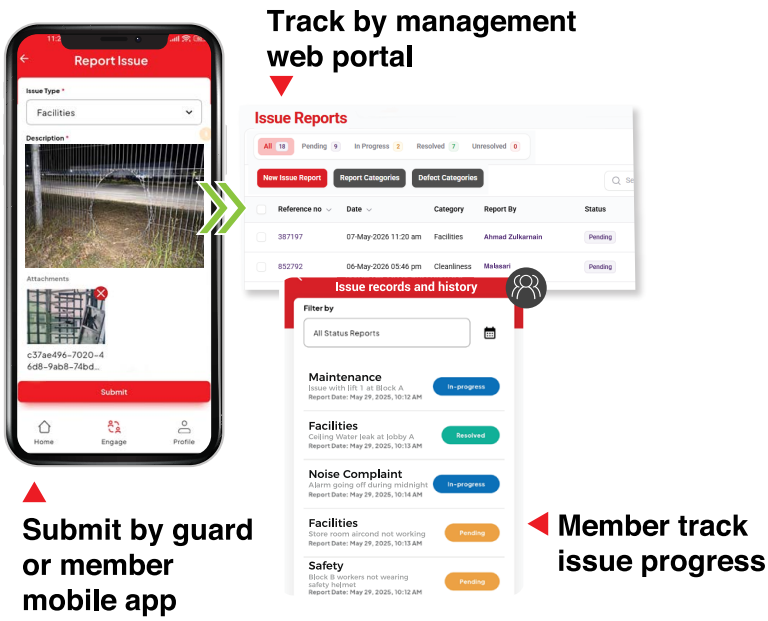

More organized application tracking

C. Efficient communication and engagement

Improve information sharing with accountability.

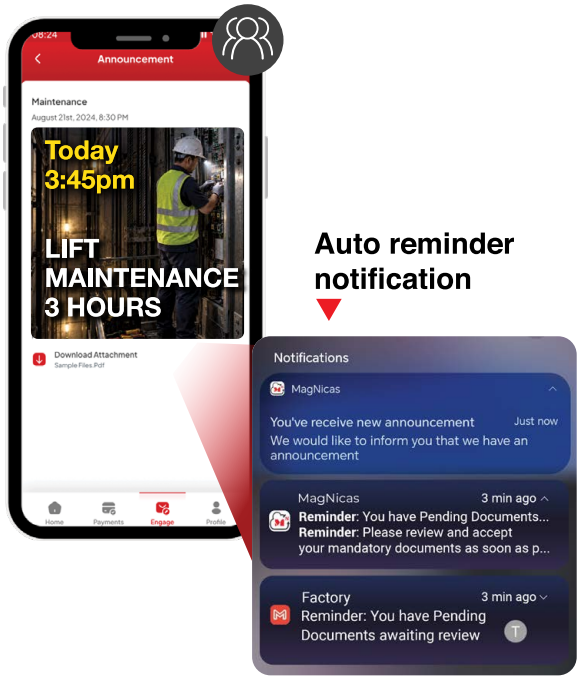

7 Issue Report

Automate tracking of defects and non-compliance issues to the right manager with pictures to empower more timely resolution.

8 Targeted Announcement

Ensure your message is received by 100% of the selected users with our tracker.

WHERE TO USE OUR SOLUTION?

Industrial
